IRIS

In making up this 1936 Iris List we have divided our list into three separate groups. We have our group of "Extra Good" varieties, "Medium Priced" varieties and "Common" varieties. This grouping does not mean that the "Common" varieties are poor Iris. There are a lot of good varieties in this Cheaper Group, such as Afterglow, Gertrude, Pallida Dalmatica and others, but they are older and stock is more plentiful and as a result they carry a cheaper price.

EXTRA GOOD VARIETIES

This list contains some of the World's finest Iris. Practically all of them are recent introductions and are much improved over the old types. If you have never handled any of these "Extra Good" varieties it would be our suggestion that you try a few of them. Your customers will enjoy getting acquainted with them.
